Bit Bent Woden,
Woden Youth Centre,
Corinna Street Woden.

This publication is a collection of stories by young queer people in the ACT about their experiences. It provides information to youths, workers and the community about the experiences and lives of young same-sex attracted people in the ACT. It hopes to expand knowledge about the services available in the ACT, and let other young people know that they are not alone.

We would be delighted if you could join us to celebrate the launch of this important publication. Light refreshments will be provided.
